Leading with Purpose: Chairman's Message

“It gives me great pleasure to welcome you to Chanakya. When we first began, we didn't have all the answers. We didn't do our grand opening with extravaganza, but we had belief, commitment, and a clear purpose. Today, that purpose has grown into a thriving institution built on the pillars of academic excellence, discipline, and innovation. We see education not just as the transfer of knowledge, but as a powerful force for building confidence, character, and direction. We understand education knows no bounds, but to get to where you want to be, you need the right tools.

With the support of our experienced faculty, smart infrastructure, and industry-aware curriculum, we aim to nurture students who are not only competent but also thoughtful, responsible, and future-ready.

As Chairperson, I feel a deep sense of pride when I see how far we've come and an even deeper excitement for what lies ahead. Come visit us soon at Chanakya.

*When we started, we too started with belief.
So I know exactly where you are in your lives,
and we are ready to welcome you here.*

Chandan Krishna Shrestha ▶
Chairman

A Commitment to Excellence: Principal's Message

“ At Chanakya, we measure progress not just by numbers, but by impact. Year after year, our students perform exceptionally well in academics, but what matters even more is how they grow. We love their confidence, curiosity, and clarity of purpose. We've built an ecosystem that doesn't just prepare students for exams but equips them to think independently, work collaboratively, and lead wherever they go.

What sets us apart is our consistent commitment to doing better. Every term, every intake, we focus on continually improving ourselves. From upgrading our curriculum and teaching practices to expanding our facilities and support systems, we evolve with purpose.

As Principal, I am proud to witness the transformation of our students each year. I see dreams take shape and goals being achieved, step by step. If you're looking for a place where your effort will be recognized, your potential will be nurtured, and your success will be celebrated and I believe you'll find that place here at Chanakya. If you've made it this far, you seem to be interested in the experience we have prepared for you. So reach out, ask us questions, and prepare for a brilliant life.

*Don't just listen to our words.
Look at our Results.
Look at how far we have come
and what we can offer for you.*

Advisory Board

The establishment of an Advisory Board at Chanakya plays a vital role in strengthening the institution's academic vision and long-term strategic direction. The purpose of the Advisory Board is to bring together experienced professionals from diverse fields to provide expert guidance, insights, and recommendations that support the continuous growth and development of the college.

A Blend of Expertise and Perspectives

The Advisory Board brings together distinguished individuals from academia, industry, and professional sectors, ensuring a rich diversity of knowledge and experience. This blend of perspectives supports informed decision-making and helps Chanakya address academic and institutional challenges with a holistic approach.

Shaping Vision and Institutional Growth

The Advisory Board contributes to defining and refining the long-term vision of Chanakya. By staying updated with developments in education, industry trends, and global academic standards, the board helps guide the institution in strengthening its programs and staying future-ready.

Ensuring Academic Excellence

A core focus of the Advisory Board is to support continuous improvement in academic quality. Through regular review and feedback, the board provides valuable suggestions on curriculum enhancement, teaching approaches, student development initiatives, and institutional resources, ensuring a consistently high standard of education.

Building Connections Beyond Campus

The Advisory Board acts as a bridge between Chanakya and wider academic, professional, and industry networks. Through these connections, opportunities are created for collaborations such as guest lectures, internships, knowledge exchange, and academic partnerships that enhance student learning experiences.

Encouraging Continuous Progress

The Advisory Board fosters a culture of continuous development within the institution. Through ongoing evaluation, feedback, and strategic recommendations, it supports innovation, accountability, and sustained academic excellence at Chanakya.

Our Education Network

Chanakya Educators is a recognised education institution established with the purpose to provide excellent educational services to students from Montessori to Master's level. Along with school, we excel in offering higher secondary courses (+2 NEB) in Management, Science & Law, BBS and MBS (TU affiliated) with our own infrastructural facilities in our independent blocks. We aspire to extend more university level programs in the future.

Chanakya College at a Glance

At Chanakya, we believe growth is never a one-time event. It's a journey that continues with every lesson, every challenge, and every improvement. That's why we constantly refine our systems, curriculum, and teaching approach to stay in step with what students need today and tomorrow.

By integrating applied and interactive learning, we help students move beyond rote learning. Our goal is to develop individuals who are confident thinkers, problem-solvers, and adaptable to the real world. All of this is made possible by our faculty members who bring deep knowledge, experience, and personal commitment to every classroom. Their mentorship ensures that each student is seen, supported, and set up for success.

Our campus is designed for learning that lasts. With smart classrooms, dedicated science labs, resourceful library and access to advanced learning tools, students engage in a vibrant academic environment that inspires exploration and curiosity.

We also value what happens outside the classroom. Leadership activities, student clubs, and community engagement are central to life at Chanakya. These opportunities build confidence, collaboration, and a strong sense of responsibility among our students.

With all of these, our achievements tell a bigger story. We have a history of excellent board exam results with 4.00 GPA as our highest across multiple years. With that, our wholesome balance of academics & ECA are highly talked about. There is so much here for everyone.

Vision Statement

At Chanakya, our vision is to emerge as a center of academic excellence that shapes future-ready individuals equipped with the knowledge, skills, and values necessary to lead and succeed in a rapidly changing world. We envision a learning environment that goes beyond textbooks, where innovation is encouraged, curiosity is nurtured, and personal growth is as important as academic achievement. We aim to inspire students to become critical thinkers, effective communicators, ethical professionals, and socially responsible citizens. By integrating advance teaching methods, industry-relevant curricula, and global best practices, we strive to empower our students to make a meaningful impact in their fields and communities.

Mission Statement

At Chanakya, our mission is to provide a dynamic and student-centered academic environment that fosters intellectual growth, creativity, and a spirit of inquiry. We are committed to delivering quality education that not only equips students with strong theoretical foundations but also prepares them for real-world challenges through practical learning and industry exposure. We aim to nurture leadership qualities, ethical values, and a sense of social responsibility among our students, helping them grow into responsible and capable individuals. Our programs are designed to be relevant, innovative, and aligned with global standards, ensuring our graduates are competitive in both local and international landscapes. By investing in smart infrastructure, faculty development, and continuous curriculum enhancement, we strive to maintain academic excellence and support lifelong learning.

Science

Pathway to Innovation

Building on 16 years of excellence in education, Chanakya's Science stream in the +2 program is designed as a strong academic pathway for students aspiring to pursue higher education and professional careers in science and technology. With a well-established reputation for academic achievement, discipline, and student success, the college continues to deliver a structured and result-oriented Science curriculum that meets the evolving demands of dynamic education.

The program provides students with a solid foundation in scientific principles, analytical reasoning, and logical thinking, preparing them for higher studies in fields such as medicine, engineering, information technology, and scientific research.

What sets Chanakya's Science Program apart?

At Chanakya, the Science program is built on a balance of academic rigor and practical learning. It provides students with a strong academic foundation in core scientific disciplines while emphasizing analytical thinking, problem-solving abilities, and the real-world application of knowledge. The program is designed to prepare students for competitive examinations as well as higher education pathways, with exposure to interdisciplinary learning across science, technology, and management. With experienced faculty members and dedicated academic support, students receive continuous guidance that helps them achieve both academic excellence and career readiness in national and international contexts.

Graduates of the Science stream are well-prepared to pursue higher studies in Medicine, Engineering, Information Technology, Pure Sciences, Pharmacy, Biotechnology, and Environmental Studies. They are also equipped for emerging fields such as research, healthcare, data science, artificial intelligence, and other innovation-driven sectors.

Student Life and Support

At Chanakya, science students thrive in a supportive environment with approachable faculty, hands-on lab sessions, and regular mentoring.

Future of Science

At Chanakya, our science faculty is committed to nurturing analytical thinking, hands-on learning, and innovation. Through advanced laboratories, dedicated faculty, and a research-driven environment, we prepare students to lead with knowledge and integrity in the ever-evolving world of science.

Testimonials

“

Chanakya has been a wonderful experience for me. I have not only gained academic knowledge but also developed my personality, leadership and organizational skills. Having the opportunity to lead the Chanakya Club Committee as the President, I could sense the incredible role Chanakya plays in creating an enriching space for the students. I feel empowered with the numerous opportunities that were given to us from organizing cultural celebrations to networking events. I will forever be grateful to have had the honor of walking alongside some of the most dedicated and talented individuals at Chanakya.

Binay Ghimire (Alumni)

”

“

I'm Sanju Shrestha, the former captain of the Chanakya girls basketball team. Being a part of the team has taught me a valuable life lesson: the essence of coordination, discipline and resilience. In these two years, our team participated in different tournaments and were able to bring trophies home, this makes me immensely happy and proud. I really appreciate the support and encouragement that I receive at Chanakya. Though it was a short journey, I'll cherish this tranfiguring experience that I had at Chanakya throughout my time as a student.

Sanju Shrestha (Alumni)

”

“

I'm currently studying at a university in Japan, and my time at Chanakya truly changed me. It wasn't just about studies or the classroom — Chanakya pushed me beyond my comfort zone, taught me to face challenges with confidence, and helped me grow as a person. Even today in Japan, whenever things get difficult, I remind myself to face challenges instead of fear them — and that mindset came from Chanakya. More than academics, Chanakya taught me resilience, confidence, and self-belief, and I'll always carry that with me.

Parichit Puri (Alumni)

”

Management

Shaping Future Leaders

The Management stream at Chanakya has long stood as a cornerstone of our academic offerings. With a strong legacy of producing capable, confident, and ethical business professionals, this program is designed for students who want to understand how the world works and how they can shape it. The curriculum blends academic rigor with practical exposure, helping students navigate today's fast-moving, opportunity-rich global economy.

What Sets Chanakya's Management Program Apart?

At Chanakya, business education goes beyond textbooks. Our students study the foundations of economics, business studies, accountancy, and more; while also learning how to apply those principles in real-world contexts. Through project-based learning, simulations, and case study discussions, students build critical thinking and strategic decision-making skills.

Graduates of the Management stream go on to pursue higher education in Business Administration, Economics, Law, Hotel Management, Entrepreneurship, and International Relations. Many also enter the workforce early, equipped with the professional confidence and adaptability required in dynamic business environments. Outside the classroom, management students take part in business clubs, entrepreneurship workshops, inter-college competitions, and leadership development events.

Student Life and Support

The Management stream is about building confidence, perspective, and the ability to lead. Students are supported through regular mentoring, structured assessments, and a faculty that values open dialogue and personal growth. Leadership clubs, event management committees, and participation in business fests give students practical exposure to working in teams professionally.

Field Visits

We organize field visits to local businesses, remote corporate establishments, and hospitality groups to give students a firsthand look at how industries operate. These experiences help bridge classroom learning with real-world practices, encouraging students to ask better questions, understand workplace dynamics, and connect theory with action.

Testimonials

“

As the current President of the Chanakya Club Committee, I've had the opportunity to lead a team focused on innovation and collaboration. With the continuous support of Chanakya, we've been able to organize impactful events that bring students together and drive personal growth. This experience has not only sharpened my leadership and planning skills but also strengthened my confidence for future ventures.

Aashish Thapa (Alumni)

”

“

As Former President of the Chanakya Club Committee, I had the privilege of organizing various programs and events. This role taught me teamwork, responsibility, and event management, significantly improving my skills. Leading a compatible team has been an invaluable experience, and I am grateful for the opportunities Chanakya College provided to enhance my skills and personality.

Jebika Shilpakar (Alumni)

”

“

My journey with Chanakya started in +2, and I chose to continue my bachelor's here as well — which really reflects the trust and connection I built over the years. Chanakya was beyond just academics for me. It provided me opportunities to grow, take on challenges, and build confidence. Being part of events like Dashain Fest, hosting and organizing programs, really helped me step out of my comfort zone and develop real-life skills.

The mentors here have always been incredibly supportive and motivating, pushing us to do better every day.

I am working as an Executive Assistant, in a reputed organisation in Lalitpur, and as a working professional, I can confidently say that Chanakya played a big role in shaping who I am today.

I'm truly proud to be a part of this institution.

Agupta Bajracharya (Alumni)

”

Law

Pathway to Justice

Chanakya's Law stream in the +2 program is designed to introduce students to the fundamental principles of law, justice, and governance, while developing a strong sense of ethical responsibility and civic awareness.

The program encourages students to explore the relationship between law, society, and justice, while building essential skills in reasoning, interpretation, and structured thinking. It serves as a foundation for students aspiring to pursue higher studies and professional careers in the field of law and justice.

What Sets Chanakya's Law Program Apart?

At Chanakya, the Law program is designed to develop logical reasoning, communication skills, ethical awareness, and a strong understanding of legal systems and societal structures. The curriculum encourages students to think critically about justice, rights, and responsibilities while building a strong foundation in legal principles and social sciences. With experienced faculty guidance and consistent academic support, students are well-prepared for higher education in law and competitive academic pathways, both nationally and internationally.

Graduates of the Law stream are equipped to pursue further studies in Law (LLB), Criminal Justice, Political Science, International Relations, Public Administration, and related fields. They are also well-positioned for future roles in legal practice, judiciary pathways, public service, advocacy, policy-making, and governance.

Student Life and Support

The Law stream is designed to cultivate confidence, ethical awareness, and a strong sense of justice alongside academic learning. Students are supported through regular mentoring, structured assessments, and faculty guidance that encourages critical thinking, open discussion, and intellectual growth.

Scholarships

Merit-Based Scholarships

Chanakya provides merit-based scholarships to the students on the basis of the grades scored in the board examinations.

Need-Based Scholarships

As per the quota prefixed by the Nepal Education Board (NEB), students of historically underrepresented communities, ethnic minority communities, marginalized areas and students with special physical needs are eligible for this scholarship.

Awards

Best Student of the Year Award

Awarded to the students who secure the highest percentage in aggregate in Annual Board Examination

Chanakya Punctual Student Award

Awarded to the students who attribute to a 100% attendance during an academic session

Chanakya Merit Award

Awarded to the students who secure the first, the second and third position in the internal terminal examination

Effective Educational Trainings

Chanakya organizes periodical educational training programs to enhance the practical knowledge beyond theory classes by observing real life applications of the knowledge with our collaborative organizations. We also organize relevant field visits to deepen their understanding of the existing market and scenarios. Various project works are based on these visits, some of which are evaluated by the external invigilator from NEB at the end of each session.

Continuous Assessment And Evaluation

The performance of every student is observed throughout the year to ensure that she/he is effectively dealing with the course study and making progress. Unit tests, terminal examinations and pre-board examinations are timely conducted which helps the teachers and students to be aware about the areas of improvement for every student. This prepares our students for the board examinations administered by the National Examination Board (NEB). Besides the academic aspect of the students, the students' non-academic performance (punctuality, discipline, performance in ECA, special talents) will be evaluated and reported to the concerned guardians periodically.

Chanakya Student Council

Welcome to Chanakya, a place where we strive to turn aspirations into accomplishments. Our mission is to create a vibrant learning atmosphere where students are encouraged to explore their interests, pursue academic excellence, and develop practical skills that prepare them for success in their chosen careers. We take pride in our dedicated faculty, who are not only subject matter experts but also mentors committed to the growth and well-being of every student.

Our academic programs are designed to be challenging, relevant, and future-ready, integrating theory with hands-on learning to bridge the gap between classroom knowledge and real-world application. In addition to academics, we focus on developing leadership, teamwork, communication, and ethical values through various extracurricular and community-based activities.

Our campus fosters a culture of respect, curiosity, and collaboration, where every student is seen, heard, and supported. At Chanakya College, we understand that every student is unique, and we are committed to helping each one reach their full potential. We look forward to being a part of your academic journey and watching you grow into confident, capable, and compassionate individuals.

Club Engagement

College life at Chanakya is brilliant. We believe in learning that happens also outside the classrooms. **#LifeAtChanakya**, our experience philosophy, allows us to shape our campus where there is something for everyone. From organizing events and workshops to leading competitions and cultural programs, our clubs are a vibrant part of campus life. These experiences help students build leadership, creativity, collaboration, and communication skills all while having fun and forming lifelong connections. Whether you're passionate about sports, music, literature, arts, entrepreneurship, or social causes, there's a club for you at Chanakya. Our clubs are where ideas come to life. You never know who you could meet, what project you could start, and how it can change your life.

Our social hashtag is #LifeAtChanakya. This tag allows us to showcase the vibrant student experiences, achievements, and everyday moments that make life at Chanakya unique.

Career Counselling & Mentorship

The two years of high school are integral years that help them have a deeper understanding about their career choices. Chanakya provides effective career counseling and mentorship that enhances the ability of our students to identify the opportunities that lie in Nepal and beyond. The process makes them understand themselves and the world of work to majorly make their educational and career decisions while moving forward in life.
